

Sunday, September 13

9AM

TCH Clubhouse

We will meet to create work groups and assign trails/areas that need work.

Trail maintenance and clearing is an essential part of our enjoyment of Hunt Country. Through our efforts, we keep the trails safe for horses, riders, and hounds all year long. Please join us and bring whatever tools/equipment you think will be helpful:

loppers, chainsaws, handsaws, etc.

Water and light snacks will be provided. Bring gloves, sun screen, bug repellant, or anything you need to be comfortable working in the woods.

Please email Jennifer Long at jatyler@gmail.com with suggestions of trails or jumps that need attention or repair. We may not get to everything in one day but will be able to create a plan for future cleanups!! Your input is important!
